Kenyon Runs Off Victory Over Marietta, 71½ to 50½

By John Hartman

The Kenyon thinclads, participating on a water-logged field at Marietta College, proved to be the superior 'mudders' in overpowering the Marietta tracksters by a substantial margin, 71½ to 50½, on May 4th.

The local track squad now boasts a .500 average having won a dual meet, lost a dual, and placed second in a triangular engagement. The win also gave Coach Bob Parmelee his first victory at Kenyon.

Although the track was flooded at several places with large pools of water, there were several times and distances worthy of commendation. Dave Endsley vaulted a neat 11 feet to capture the pole vault and he also placed second in the 220 yd. low hurdles.

The surprise of the meet came when Eppa Rixey, skimmed over the high jump bar at 5 ft., 10 in. employing a scissor kick, thus proving that this type of high jumping style can be used to advantage at that height.

Jack Zelinsky collected two firsts in the 100 yard dash which he negotiated in 10.6 seconds, and in the broad jump; while the distance company, Stepanek, Lee, and Hartman, outlasted the Marietta runners in the mile, two mile, and half-mile runs.

Drawing Room Comedy Scheduled for Two Nights

The Kenyon Dramatic Club will offer Oscar Wilde's, "The Importance of Being Earnest," the evenings of May 15th and 16th in the Speech building at 8:00 P.M.

"The Importance of Being Earnest," is drawing room comedy at its Wilde best. Decorative detail in the stage settings and elaborate costuming, typical of the late Victorian period, provide required atmosphere.

The Cast of Characters

James Hansen — Algernon
Howard Stafford — Jack
John Claypool — Dr. Chausuble
Ben Collins — Merriman
James Grudier — Lane
Lillian Chard — Prism
Francis Brown — Cecily Cardew
Francis White

Gwendolen Fairfax
Agnes Camp — Lady Bracknell
Directed by Dr. and Mrs. John Black

The Stage Crew

James Grudier, Robert Elliott, Edwin Clark, Ben Collins, and John Claypool.

TKA Plans Revival Of Speaking Contest

After a three year hiatus, the ten year old annual Tau Kappa Alpha inter-divisional extempore speaking contest will be resumed on the Wednesdays of May 22nd and 29th.

In the past, this competition has produced spirited speeches of every description from 'God vs. Pigs', 'U. S. Prestige', and 'Genealogy' to 'The Negro Problem in Northern Cities' and local Kenyon affairs.

The contests, begun in 1936, have been won twice by South Hanna and North Leonard and once by Middle Leonard and Middle Kenyon.

First Round

The first round, May 22nd, will be held in Philomathesian Hall where each division's representatives will speak and be graded by judges selected by TKA. The choice of subject is unrestricted; the speeches are generally brief, running under fifteen minutes. Each division will be heard again and graded in the final round in the Speech Building on May 29th. These ratings are to be averaged with those of the previous session and the top ranking division will be awarded the TKA trophy cup now held by North Leonard.

Tau Kappa Alpha, the sponsor, is the honorary forensic fraternity on the Hill whose members are elected for their ability in intercollegiate debating and other speaking activities.

TKA's two student members on campus, Lloyd Derrickson and Bob Golden, are making the arrangements for the contest which, before the war, commanded sharp interest in the Spring terms.

RADIN RELATES EXPERIENCES AMONG TRIBES

In a number of lectures, said by some to be the finest given in the Larwill Lecture series, Dr. Paul Radin discussed the culture of the primitive peoples and the anthropologist's approach to them.

In describing the philosophies of some of the aboriginal tribes, Dr. Radin remarked that there is a group which believes that all matter is composed of the four elements, fire, earth, air, and water in various combinations. The similarity of this belief with ancient Greek philosophy astonished most of Radin's audience.

Observed Winnebago Tribe

A first hand observer of the Winnebago tribe of north-western United States, Dr. Radin, related how he was able to induce some tribesmen to relate the most secret rituals of the tribe and how he was able to copy them down in phonetic script without understanding any part of what he was writing. He was able, however, to read it back to the Indians who were thus convinced he knew their language.

That primitive people are not simple minded, and that their lack of writing does in no way hinder their philosophical speculation were some of the striking points of Mr. Radin's talks.

Mr. Radin's book *The Primitive Man As A Philosopher*, available in the library, further extends the ideas he presented in his lectures.

Literary Societies Reorganize With Aid Of 'Collegian'

Following the policy of actively encouraging the re-establishment of the traditional Kenyon activities, the *Kenyon Collegian* has helped to effect the revival of Philomathesian and Nu Pi Kappa Literary Societies. Several issues ago the KC printed an article asking for the revival of these societies but received no response from those who would be interested. Feeling mere suggestion insufficient, the *Collegian* has asked Dean McGowan, Nu Pi, and Dr. Timberlake, Philo, with others to select and invite a nucleus of students for both organizations.

On attending a dinner, Friday night, May 10th, in the company of faculty and student members, twenty men of all the divisions will hear of the traditions of the organizations and will afterwards formally split into two groups to inaugurate their revival. Their first meetings will be held in the historic halls, built by the respective societies, and they will then elect additional members and choose their committees and officers.

International Relations Club

The *Collegian* was in October 1945 chiefly instrumental also in re-establishing the International Relations Club which will hold its first meeting of this term Thursday, May 9th.

Three Years' Work Yields Plans for New Library

Utility and Comfort Are Keynotes

The ground work for the proposed library has at last been completed after three years of intensive and fruitful work by the library committee. A tentative set of plans have already been drawn up to incorporate the requirements laid down by the committee and considerable work is now being done to refine them and to make them the best possible.

The projected building that has already won enthusiasm from the committee is to be 110 feet by 85. According to the architect's sketch, the structure includes the best features of Mather and Peirce Halls and if accepted will make one of the most handsome buildings on the campus.

Library Committee

The committee, headed by Professor Titus and including Professors Caball, Coffin, Palmer, Salomon, Thornton, Miss Hickin and Mr. Parker have worked assiduously to learn of the finest in library architecture. They visited many college and local libraries noting what was exceptional about them and then transmitted their information in detailed reports to the entire committee for its decision on the proposals. They called in the most expert consultants they could secure, among them being Joseph Wheeler of the Enoch Pratt Library at Baltimore and James G. Rogers. The architect who has drawn the preliminary plans incorporating the requirements of the library committee is Alfred Githens of New York, architect of the Virginia State Library at Richmond, of

(Continued on page 2)

Arrangements Made For Commencement

Kenyon College is completing plans for its 1946 commencement. This is the first full-programmed event of its kind at the college since the class of 1941 received diplomas, in May of that year, and it will be the 118th commencement of the college in Gambier, according to an announcement made by Robert B. Brown, Secretary.

The program will open on Friday, June 21 and will continue through Monday, June 24. Close to 500 alumni and friends of the college will assemble in Gambier from all parts of the country. Brown said. Diplomas will be awarded to 32 students, 22 of whom have seen service in the armed forces.

A special feature of the program will be a memorial service, conducted by the Rt. Rev. Henry Hobson, Bishop of Southern Ohio, honoring the forty sons of Kenyon who lost their lives in World War II.

Honorary degrees will be awarded to six men and women who have rendered distinguished services to the nation.

Choir Sings At Toledo

Invited by the Alumni Association of Toledo, the Kenyon choir directed by the Rev. Clement Welsh traveled to Toledo on Thursday, April 25th, to sing Kenyon songs and other selections. On Friday morning the group was asked to the Toledo Museum of Art by J. Arthur McLean, curator of the Museum and Alumni Association secretary. The choir returned to Kenyon Friday afternoon.

Axtell, '06, Speaks

Silas Blake Axtell, '06, distinguished maritime lawyer, on his return from the World Federalists' National Convention in Chicago addressed the student body in Peirce Hall on Monday evening, April 29th. His rousing talk concerned the need and nature of world government.

Chemistry Faculty Adds New Instructor

(This article was intended for inclusion in the first issue of this term.—Ed.)

The appointment of George S. John as Visiting Instructor in Chemistry here at Kenyon was made by President Chalmers for this Spring Term.

The new appointee spent two years during the war as a research chemist at Columbia University and at Oakridge, Tennessee, on the atomic bomb project. During this period he devoted himself successfully to the separation of uranium 235 from uranium 238 by the use of diffusion and electro-magnetic methods.

Before his appointment to the Kenyon faculty Mr. John was an instructor in Physical Chemistry at Ohio State University, where he had been doing graduate work which will qualify him to receive the Doctor of Science degree in 1947. He received his Bachelor of Science degree from Bowling Green University in Bowling Green, Ohio.

The Kenyon Infirmary

Some questions were raised in the recent criticism of the Infirmary, which appeared in the April 30th issue of P. S. It is to the interest of the student body that the questions be not only raised but answered.

Those concerned with the subject must first realize one important fact: the Kenyon Infirmary is not intended to be a hospital. It is but a half-way step from the divisions to Mercy Hospital, Mount Vernon. It is not intended to accommodate students, seriously ill, but to afford a better environment than the dormitories for those afflicted with minor ailments.

When a student has more than a severe cold or upset stomach, he is sent to Mount Vernon. If there is any doubt as to the necessity of such a step, the College Physician is called for a decision. The College Physician and ambulance service are on call for any emergency.

It is unfortunate that the writer of the P.S. infirmary article did not realize that the conditions of which he wrote were abnormal. During the flu epidemic even Mery Hospital was filled. Patients occupied the halls before the situation was serious in Gambier.

Be it also remembered that the Infirmary is a comparatively new institution here at Kenyon. Its service was inaugurated in 1943. Before that time those with lesser ills stayed in their rooms; more serious cases whether a severe cold or appendicitis went to Mount Vernon. Be it known also that an infirmary for men's colleges of the size of Kenyon is not the rule, but rather the exception. Yet the student is afforded the same environment as he would have were he sick in the same way at his own home.

We are afforded an excellent health service for the assessment which we pay. Of the \$10 fee, \$2.45 is allocated to group insurance for hospitalization at accredited hospitals, such as Mercy. The insurance does not go to cover Infirmary expenses.

The rest of the health fee is allocated to actual infirmary costs. It is a reasonable enough explanation of the use of the fee merely to note that the infirmary staff numbers three: Doctor, Matron, and assistant. Other expenses are just as obvious. If you are curious, examine the audited statement in the Treasurer's Office.

In the two fiscal years that the Kenyon Infirmary has been operating, the Health Fee has not covered the expenses incurred. A deficit, approximate to the income, has been made up in the years 1943-1944 and 1944-1945 through endowment income.

With the foregoing points in mind, it is evident that the infirmary, on a necessarily limited budget, more than adequately fulfills its aim.

Students To Confer at Prague

An International Student Conference is to take place in Prague this summer from the 17th to the 31st of August.

The main purpose of the Conference has been stated in the appeal sent to all student organizations:

"We consider that the main problem confronting the World Student Congress will be that of establishing a representative international students' organization uniting in its ranks all the democratic student organizations of the world with the aim of ensuring a lasting and stable peace, of promoting friendship among all peoples and of defending the rights and interests of students."

This conference offers a tremendous opportunity for American students to make themselves heard for the cause of international cooperation for world peace.

A call to the Conference has been issued by the International Preparatory Committee to student groups in every country. This Preparatory Committee is composed of representatives of student organizations of twelve countries and is a development of the experiences of the five hundred delegates from 51 countries who attended the International Conference at Prague in November, 1945.

At this first Conference the problems involved in the fields of student exchanges, student relief, and student responsibility for keeping the peace were considered. There was a strong

Plans for the New Kenyon Library

(Continued from page 1)

the Public Library at Wilmington, Delaware which won the Architects Prize, and of the Enoch Pratt Library for which he is best known.

The committee has held that the library must have an informal atmosphere with all the reading rooms patterned after the Reeves Room of the Alumni Library. The five floors of stacks are to be built into the center of the building completely accessible from all its parts. The stacks, which will be serviced by an elevator, will have room for two hundred thousand volumes and forty carrels or individual study sections, five of which are to be sound-proofed for typing.

Required also by the committee are six seminar rooms, a fine arts room where the library's art collections may be exhibited and kept and where librettos, music criticisms and records may be kept together with several listening booths for the recordings.

While utility of design has been the primary consideration, comfort and beauty have had important places. It has been recommended that the best site for the new building would be the plot of the Coffin house where the bays of the main reading room in the south end of the library would

look out over the valley and campus. The tops of the large, one story bays flanking the front of the structure are to be terraces open to students in warm weather for seminars. The library will be sound proofed throughout and will have the best lighting available. In the basement will be newspapers and micro-film equipment; a small film projection room is being considered.

\$300,000 to \$500,000 Cost

To cost between three and five hundred thousand dollars, the library's total book capacity will be 225,000 volumes allowing the present collection to be expanded about four times.

In talking with the members of the committee it is impossible not to be affected by their enthusiasm for the work already done and by their earnestness in trying to secure the finest possible library for Kenyon.

Now that the basic work has been done, the committee is planning to call in a body of students and others to help them polish and perfect what has already been done. Conceivably, the whole basic plan may be altered before excavation actually begins in order to insure that the new Kenyon library will be as near perfection as possible.

Bexley Alumni Meet

The Bexley Alumni Association concluded its annual meeting on May 3 with the election of officers for the coming year. Rev. Howard V. Harper of Jackson, Michigan was chosen president; Rev. Arthur W. Hargate of Coshocton, Ohio, vice-presi-

dent; Rev. George H. Jones of Mount Vernon, Ohio, secretary.

The annual series of Easter Lectures presented in conjunction with the alumni meeting were delivered by William Fox Albright, Ph.D., Th.D., Litt.D., D.H.L.

feeling that much closer cooperation was needed between student organizations of different countries if these problems were to be successfully solved. The Conference called for this summer will have as its main task the establishment of an international student organization to approach these problems.

All campus groups or individuals who are interested in having their campus represented at this Conference are urged to get in touch with Alice Horton of the American Preparatory Committee, Room 812, 8 West 49th Street, New York City.

Kutler's Netmen
Defeat Wooster, 7-0

The team looked even more powerful in their meet with Wooster last Monday than they did with Oberlin on the 26th. Only one match went three sets and that was the No. 3 singles duel. Hershberger lost his first set 6-4 but came back easily and won two consecutive sets 6-0, 6-2 to win.

Derham defeated Anderson (W) 6-2, 6-2, on the No. 1 singles without much competition. Bothwell, Kenyon's No. 2 man looked even greater in this match and easily overcame Compton (W) 6-1, 6-0. Park filled the No. 4 slot and defeated Gish (W) 6-1, 6-0 to cinch the meet. Harris defeated Laroe in the No. 5 position 6-3, 6-1.

Derham and Bothwell won easily over Anderson and Compton in the No. 1 doubles as did Park and Hershberger in the No. 2 doubles, playing Gish and Lindenbeck to scores of 6-2, 6-3.

It looks as if Mr. Kutler is out after the old Kenyon record of 80 odd straight wins and from the looks of things he is off to a fine start and by the end of the season he should have ten to his credit.

TENNIS TEAM NETS
OPENING GAME, 5-4

With five straight wins in singles Coach Kutler's netmen pulled through to defeat Oberlin 5-4 in the first match on April 26. The boys had trouble in the doubles and due to the irregularity of partners they dropped all three matches. The trouble should be overcome by the next meet with Wooster on April 29th.

In the No. 1 singles Derham (K) defeated Wolin (O) 6-2, 6-4. This match was the most interesting and exciting match of the day. Bothwell (K) in the No. 2 slot outdrove Van Meter (O) 6-3, 6-2. In a very consistent match, Hershberger (K) defeated King (O) 6-4, 6-2. In the No. 4 spot Harris (K) defeated Byrd (O) in a very long and drawn out match, the scores being 7-5, 6-8, 6-2. Park (K) cinched the meet by defeating Rupp (O) easily 6-2, 6-1. Smuckler (K) was overcome by Enfroy (O) 6-3, 6-4.

In the No. 1 doubles Byrd and Van Meter (O) defeated Derham and Hershberger (K) 3-6, 7-5, 9-7. This was a long and drawn out affair as was the Wolin - King (O) vs. Bothwell - Park (K) match. This was a tough one to lose after our boys won the first set 6-0, then dropping the next two 7-5, 6-2. In the last match of the day Enfroy and Rupp (O) overpowered Smuckler and Bruner (K) 6-2, 6-2, to leave the score at the end of the meet Kenyon 5, Oberlin 4.

CANDID COMMENTS

C. G. Nutting

The Kenyon netters came through in fine style on April 26th to defeat Oberlin 5-4. There were many tough breaks in the doubles which ended in three straight losses but with a little practice together the men shouldn't have any trouble in the future. The team started off with a bang with Derham, Bothwell, Hershberger, Harris and Park winning in singles. Derham played a marvelous game and came through in tight pinches. By the time this is printed I think the team will have three more wins to their credit. Keep adding the victories up, fellas.

Coach Pasini's Lords came through in fine style to defeat Denison 4-0, on April 24 but what happened in the Otterbein game? Let's not get our hopes built up just because of one victory. But the team started the bell ringing so let's keep it ringing. We've got the talent. Why not put to good use? The fault can't rest on any one person and its up to you, Mac, to pull a few more victories out of the bag and I know it can be done.

The tracksters seem to be very strong in the field events and with a few wins in the relays the team should go places. There are men on the campus now who are not participating in any athletic events and who can be of great assistance to Bob Parmelee. Why not help bring in a few victories, men? Bob needs relay men and sprinters and with the help in these categories we should have a well developed team, but not until such men as these turn out.

VICTORY BELL SOUNDS

BASEBALL TRIUMPH

After a silence of over a year the old victory bell rang out after Coach Pasini's nine defeated Denison 4-0 on April 24. Rhein allowed Denison one hit and victory came to Kenyon by good fielding and hitting by our boys and the poor fielding by Denison. The boys were in fine shape and

the most spectacular play of the game was a relay throw from McGregor to Zelinsky to Bowman nabbing a Denison man on third.

The team has a strong pitching staff and with the help of good fielding the nine should add more victories in the future.

	1	2	3	4	5	6	7	R	H	E
Denison	0	0	0	0	0	0	0	0	1	6
Kenyon	0	1	1	0	0	2	0	4	7	1

Tracksters Second In New Concord Meet

Coach Bob Parmelee's tracksters opened their season at New Concord in a triangular meet with Muskingum and Marietta. Muskingum walked away with the meet compiling 75 points. Kenyon took second with 40 points and Marietta was right behind with 37.

Endsley won the pole vault at ten feet and Wilson also took a first by throwing the discus 119 ft. 11 in. Wilson took second in the shot put, and Endsley placed No. 2 in the 220 low hurdles. Other men to capture seconds were Stepanek in the mile, Herring in the 220 high hurdles and Hartman in the broad jump.

Kenyon Victory

(Continued from page 1)

Bill Wilson underwent a heartbreaker when he missed first place in the shot put and discus throw by inches.

'Sparky' Vail lent the squad considerable support by taking a second in the 220 yard dash and thirds in the shot put, discus and 100.

To place the victory on ice, the mile relay team, Buck, Christiansen, Cooke, and Hartman, strode to an easy first in that event.

There was evidence, in the meet, of the excellent performance of several men in addition to the overall improvement of the entire team.

The track team engages Mt. Union at the track at Benson Bowl on May 11th, and then closes the dual meet season at Otterbein on May 25th.

Cruise with Luckner Topic of Lecture

Professor Frederic Eberle presented an illustrated lecture on his Caribbean cruise with Count von Luckner, to the German club, April 18th, 1946.

The voyage was made on von Luckner's 350 foot, four-masted sailing boat, "The Faterland," in June and July of 1930. With Mr. Eberle and Luckner were forty-five American boys, trained in the technique of sailing.

They set sail from the Hudson river for Bermuda, then to Barbados, Martinique, Trinidad, St. Thomas, Porto Rico, the Bahamas, Cuba, back to the Bahamas, and again home.

The two month voyage proved an excellent opportunity to learn much of the history and existing conditions in the various islands, related Mr. Eberle.

Inequality of wealth was most noticeable in Barbados. The English enjoyed luxurious living, while native culture was retarded by extreme poverty.

Throughout the island area were many cripples who at-

tributed their injuries to the barracuda, most feared fish of the sea.

Included in the itinerary were visits to Mt. Pelee in Martinique and the fabled Asphalt Lake in Tinidad.

The adventurers enjoyed the generous hospitality of many prominent Americans. Theodore Roosevelt, Jr., then governor of Porto Rico, was especially gracious.

Mr. Eberle delivered the lecture in German, but augmented the simple German vocabulary with necessary English explanations.

A party in the South Hanna parlor Wednesday, May 8, will conclude the club's '45-'46 program.
